*Animal* means mammals, reptiles or birds.

*At large* means to be off the premises of the owner and not under the control of some person either by leash or otherwise, but a dog or cat within an automobile of its owner or any other person with the consent of the owner of such dog or cat shall be deemed to be upon the owner's premises.

*Cat* means any feline, regardless of its age or sex.

*Cruel* means causing unnecessary and excessive pain or suffering or unjustifiable injury or death.

*Dog* means any canine, regardless of its age or sex.

*Farm animal* means any warm-blooded animal normally raised on farms in the United States and used for food or fiber.

*Law enforcement officer* has the meaning as appears in Wis. Stats. § 967.02(5), and includes a humane officer under Wis. Stats. § 95.21, but does not include a conservation warden appointed under Wis. Stats. § 23.10.

*Neutered* means a dog or cat having nonfunctional reproductive organs.

*Pet* means an animal kept and treated as a pet.

**Cross Reference** – Definitions generally, § 1-2.

**Sec. 6-2 Rabies vaccination required.**

(a) *Schedule.* The owner of a dog or cat shall have the dog or cat vaccinated against rabies by a veterinarian within 30 after the dog or cat reaches four months of age and revaccinated within one year after the initial vaccination. If the owner obtains the dog or cat or brings the dog or cat into the village after the dog or cat has reached four months of age, the owner shall have the dog or cat vaccinated against rabies within 30 days after the dog or cat is brought into the village unless the dog or cat has been vaccinated as evidenced by a current certificate of rabies vaccination. The owner of a dog or cat shall have the dog or cat revaccinated against rabies by a veterinarian before the date the immunization

is expires as stated on the certificate of rabies vaccination or, if no date is specified, within three years after the previous vaccination. The certificate of rabies vaccination shall meet the requirements of Wis. Stats. § 95.21(2).

(b) *Completion and issuance of certificate.* A veterinarian who vaccinates a dog or cat against rabies shall complete and issue a certificate of rabies vaccination to the owner, bearing a serial number and in the form approved by the village, stating the owner's name and address; the name, sex, breed and color of the dog or cat; whether the dog or cat is spayed or unspayed, or neutered or unneutered; the date of the vaccination; the type of rabies vaccination administered and the manufacturer's serial number; and the date that the immunization expires, as specified for that type of vaccine by the Center for Disease Control of the U.S. Department of Health and Human Services and the village.

(c) *Copies of certificate.* The veterinarian shall keep a copy of each certificate of rabies vaccination in a file maintained for such purpose until the date that the immunization expires or the dog is revaccinated, whichever occurs first.

(d) *Tag.* After issuing the certificate of rabies vaccination, the veterinarian shall deliver a rabies vaccination tag of durable material to the owner, bearing the same serial number as the certificate; the year the vaccination was given; and the name, address and telephone number of the veterinarian.

(e) *Tag to be attached to collar.* The owner shall attach the rabies vaccination tag or a substitute tag to a collar, and such collar, with the tag attached, shall be kept on the dog at all times, but such requirement does not apply to a dog during competition or training; while hunting; while securely confined indoors; or while securely confined in a fenced area. The substitute tag shall be of a durable material and contain the same information as the rabies vaccination tag. The requirements of this subsection do not apply to a dog which is not required to be vaccinated under subsection (a) of this section.

(f) *Duplicate tag.* The veterinarian may furnish a new rabies vaccination tag with a new serial number to an owner in place of the original tag upon presentation of the certificate of rabies vaccination. The veterinarian shall then indicate the new tag number on the certificate and keep the record in a file.

(g) *Cost.* The owner shall pay the cost of the rabies vaccination, the cost associated with the issuance of a certificate of rabies vaccination and the delivery of a rabies vaccination tag.  
(Code 1988, § 7-1-2)

### **Sec. 6-3. Dog, cat and kennel licenses.**

(a) *Dog licenses.*

- (1) It shall be unlawful for any person in the village to own, harbor or keep any dog or cat more than five months of age without complying with the provisions of Wis. Stats. §§ 174.05-174.10, relating to the listing, licensing and tagging of such dogs and cats.
- (2) The owner of any dog or cat more than five months of age on January 1 of any year, or five months of age within the license year, shall annually, or on or before the date the dog or cat becomes five months of age, pay a license tax and obtain a license for such dog or cat.

- (3) The minimum license tax under this subsection (a) shall be as set by the village board from time to time for spayed females or neutered males. The minimum fee for unspayed or unneutered animals shall be as set by the village board from time to time and on file in the village offices. Such amounts shall be reduced by one-half in the animal becomes five months of age after July 1 during the license year. The license year shall commence January 1 and end December 31.
- (4) Upon payment of the required license tax and presentation of evidence that the dog is currently immunized against rabies, as required by section 6-2, the village administrator shall complete and issue to the owner a license for such dog, containing all information required by state law. The village administrator shall deliver to the owner, at the time of issuance of the license, a tag of durable material bearing the same serial number of the license, the name of the county in which such license is issued and the license year.
- (5) The owner shall securely attach the tag to a collar, and the collar with the tag attached shall be kept on the dog or cat for which the license is issued at all times, except as provided in section 6-2(e).
- (6) The fact that a dog or cat is without a tag attached to the dog or cat by means of a collar shall be presumptive evidence that the dog is unlicensed. Any village police or humane officer shall seize, impound or restrain any dog or cat for which a dog or cat license is required which is found without such tag attached.
- (7) Notwithstanding the foregoing, every dog specifically trained to lead blind or deaf persons is exempt from the dog license tax, and every person owning such a dog shall annually receive a free dog license from the village administrator upon application of such license.

(b) *Kennel licenses.*

- (1) Instead of the license tax for each dog required by this section, any person who keeps or operates a kennel may apply for a kennel license for the keeping or operating of the kennel. Such person shall pay a license tax for the license year as set by the village board from time to time and on file in the village offices for a kennel of 12 or fewer dogs and an additional fee as set by the village board from time to time and on file in the village offices for each dog in excess of 12. Upon payment of the required kennel license tax and, if required by the village board, presentation of evidence that all dogs over five months of age are currently immunized against rabies, the village administrator shall issue the kennel license and a number of tags equal to the number of dogs authorized to be kept in the kennel. Kennels may only be located in residential areas after a conditional use permit has been issued following a public hearing pursuant to chapter 58, pertaining to zoning.
- (2) The owner or keeper of a kennel shall, at all times, keep a kennel license tag attached to the collar of each dog over five months of age kept by the owner or keeper under a kennel license, but such a requirement does not apply to a show dog during competition, a dog securely confined indoors, or a dog securely confined in a fenced area. The tags may be transferred from one dog to another within the kennel whenever any dog is removed from the kennel. The rabies vaccination tag or substitute tag shall remain attached, at all times, to the dog for which it is issued, but such requirement does not apply to a show dog during competition, a dog securely confined indoors, or a dog securely confined in a fenced area. No dog bearing a kennel tag shall be permitted to stray or

be taken any place outside the limits of the kennel, unless the dog is on a leash or temporarily for the purpose of hunting, breeding, trial, training or competition.

(Code 1988, § 7-1-3; Ord. of 8-10-2005(11))

**State law reference** – Similar provisions, Wis. Stats. § 174.053.

#### **Sec. 6-4. Late fees.**

The village administrator shall assess and collect a late fee as set by the village board from time to time and on file in the village offices from every owner of a dog five months of age or older if the owner failed to obtain a license prior to April 1 of each year or within 30 days of acquiring ownership of a licensable dog, or failed to obtain a license on or before the dog reached licensable age. Such late fee shall be charged in addition to the required license fee.

(Code 1988, § 7-1-4)

#### **Sec. 6-5. Rabies quarantine.**

(a) *Confinement of dogs and cats; notice.* If a district is quarantined for rabies, all dogs and cats within the village shall be kept securely confined, tied, leashed or muzzled. Any dog or cat not confined, tied, leashed or muzzled is declared a public nuisance and may be impounded. All officers shall cooperate in the enforcement of the quarantine. The village administrator shall promptly post notices of quarantine in at least three public places within the village.

(b) *Exemptions.* A dog or cat which is currently immunized against rabies, as evidenced by a valid certificate of rabies vaccination or other evidence, is exempt from the village quarantine provisions of subsection (a) of this section if a rabies vaccination tag or substitute tag is attached to the dog's or cat's collar.

(c) *Animal suspected of biting a person or being infected with or exposed to rabies.*

(1) *Dogs and cats.* An officer shall order a dog or cat to be quarantined if the officer has reason to believe that the animal bit a person, is infected with rabies or has been in contact with a rabid animal. If quarantine cannot be imposed because the dog or cat cannot be captured, the officer may kill the animal. The officer may kill a dog or cat only as a last resort if the owner agrees. The officer shall attempt to kill the animal in a humane manner and in a manner which avoids damage to the animal's head.

(2) *Other animals.* An officer may kill, or order to be killed, an animal other than a dog or cat if the officer has reason to believe that the animal bit a person or is infected with rabies.

- (2) *Animals suspected of biting a person.* If a dog or cat is ordered to be quarantined because there is reason to believe that the animal bit a person, the custodian of an isolation facility or the owner shall keep the animal under strict isolation under the supervision of a veterinarian for at least ten days after the incident occurred. For the purposes of this subsection, the term “supervision of a veterinarian” includes, at a minimum, examination of the animal on the first day of isolation, on the last day of isolation and on one intervening day. If the observation period is not extended and the veterinarian certifies that the dog or cat has not exhibited any signs of rabies, the animal may be released from quarantine at the end of the observation period.
- (3) *Period of confinement.*
- (a) If a dog or cat is ordered to be quarantined because there is reason to believe that the animal has been exposed to a rabid animal, and if the dog or cat is not currently immunized against rabies, the custodian of an isolation facility or the owner shall keep the animal leashed or confined for 180 days. The owner shall have the animal vaccinated against rabies between 155 and 165 days after the exposure to a rabid animal.
- (b) If a dog or cat is ordered to be quarantined because there is reason to believe that the animal has been exposed to a rabid animal and if the dog or cat is immunized against rabies, the custodian of an isolation facility or the owner shall keep the animal leashed or confined for 60 days. The owner shall have the animal revaccinated against rabies as soon as possible after exposure to a rabid animal.
- (4) *Animals exhibiting symptoms of rabies.* If a veterinarian determines that a dog or cat exhibits symptoms of rabies during the original or extended observational period, the veterinarian shall notify the owner and the officer who ordered the animal quarantined and the officer or veterinarian shall kill the animal in a humane manner which avoids damage to the animal’s head. If the dog or cat is suspected to have bitten a person, the veterinarian shall notify the person or the person’s physician.
- (e) *Delivery of carcass; preparation; examination by state laboratory of hygiene.* An officer who kills an animal shall deliver the carcass to a veterinarian or local health department. The veterinarian or local health department shall prepare the carcass, properly prepare and package the head of the animal in a manner to minimize deterioration, arrange for delivery of the head to the state laboratory of hygiene by the most expeditious means feasible and dispose of, or arrange for the disposal of, the remainder of the carcass in a manner which minimizes the risk or exposure to any rabies virus. The state laboratory of hygiene shall examine the specimen and determine if the animal was infected with rabies, and shall notify the village, the veterinarian or local health department which prepared the carcass and if the animal is suspected to have bitten a person, that person or the person’s physician.
- (f) *Cooperation of veterinarian.* Any practicing veterinarian who is requested by an officer to be involved in the rabies control program is encouraged to cooperate in a professional capacity with the village, the state laboratory of hygiene, the local health department, the officer involved and, if the animal is suspected to have bitten a person, the person’s physician.
- (g) *Responsibility for quarantine and laboratory expenses.* The owner of an animal is responsible for
- (h)

any expenses incurred in connection with keeping the animal in an isolation facility; supervision and examination of the animal by a veterinarian; preparation of the carcass for laboratory examination; and the fee for the laboratory examination. If the owner is unknown, the county is responsible for such expenses.
